## Meeting of the Council to Consider Union Depot Matters.

The city council held a meeting yesterday afternoon for the purpose of conferring with several representatives of the Union Depot company with reference to the plan of action to be adopted at the meeting of the railway commission tomorrow. The commissioners are expected to arrive this morning and will be quartered at the Grand. The meeting will be held at the south room of the courthouse, just when cannot be decided until they arrive. They will, in all probability, take a ride about the city to make an examination of the depot and to find out how much worse they are now than when they visited this city.

At the council meeting yesterday afternoon G. F. Wright, W. H. M. Pusey, John Churchill and T. J. Evans were present as representatives of the Union Depot company, and they protested earnestly against the council's giving up the Union Depot plan and making the sole right to compete the companies to build local depots. At their request a committee was appointed to co-operate with the Union Depot company and to take such steps to introduce evidence, etc., as they might think best. This committee consists of Mayor Lawrence, City Attorney Hargrett, and Almeren Pace, Jennings and a similar duty. The committee will have a vigorous fight for a union depot, with the understanding that if that failed the local depot plan should be pushed.

Must Get Some New Bottles.

A petition has been filed in the district court in which the bottling firm of W. W. Hargrett and H. W. Hargrett, and L. Hargrett, another dealer in bottled goods, is the defendant. In the petition the plaintiffs set forth that they have been in the habit of using bottles in their business which have their firm name blown in them, and that this name has become a mark of the goods, and that they are buying drinkable goods. Now, they allege, Hargrett has gotten hold of a lot of the bottles bearing this trade name, and is putting up some mixture of his own and selling it, leading the public to believe that it is the goods of Hargrett and Hargrett. The bottles, they claim, have never been sold with the liquor, but remain the firm property. They accordingly demand a writ of injunction restraining Hargrett from using the bottles in this way. The writ was issued, and the defendant served with it by a deputy sheriff. A petition making the same allegations, which A. S. Sherrbrook is made defendant, was also filed.

Found a Corpse.

Quite a furor was caused yesterday at the little town of Minden by the finding of a dead and horribly decomposed body of a man in a ditch of tail tracks near the town. A party of Rock Island section hands were moving the weeds at the place, when they suddenly came across the body. One of the arms and shoulders of the dead man were broken, and the body was broken up by the force of his fall from the railroad track, which was only a few feet away. The authorities of Minden were notified, and an examination resulted in showing that the dead man had been a printer living in Sioux. The man is thought to have been stealing a ride on a train and to have fallen while asleep, or to have been walking on the track and was struck by an engine and knocked down the track. The body was found by section hands, and it was not until late in the afternoon that the body was found. Lost and Found.

Blind Rishton lost a team of horses and a buggy Sunday night. The horses were in a barn at the corner of Broadway and Twenty-first street, and the thieves tried the door from its hinges, took out the animals, harnessed them to the buggy and drove away. Yesterday the man who drives the mail wagon between Council Bluffs and Taylor Station found the missing rig at Taylor Station and brought it to the city with him. There is no clue as to the direction the horses thieves took after leaving the team.

RECEIVERS APPOINTED.

Another Step Toward Settling the Iron Mill Troubles.

Baltimore, Md., Aug. 20.—Late this afternoon Judge Adams appointed Charles J. Weiner and Joseph C. France receivers for the order of the Iron Mill.

The supreme officers of the order who reside in Baltimore, and who were made party defendants in the bill brought by Attorney Weiner, came into court and gave their consent to the appointment of receivers. Then Judge Adams made the appointment.

Notice was served on all the depositories of the funds. These receivers will administer the fund of \$185,000 still remaining in Maryland. Of course they will not assume their duties unless receivers are granted at Indianapolis.

Gosmer, the supreme vice justice of the order, was returned last night from Indianapolis.

He consented to the appointment of the receivers.

Another bill for an injunction and a receiver was filed today in the circuit against the Iron Mill by W. Burns Trunkle, attorney for Peter W. Potter. The bill asks that the injunction may be made restraining the Iron Mill Savings bank from collecting any money due it on mortgages and from parting with any of its funds of the order except as directed in its suits. The bill also asks that a receiver be appointed to take charge of and collect all the money and the assets of the order within the state of Nebraska and the direction of the court. Judge Dennis signed an order granting a preliminary injunction to this effect and setting August 24 as the day for the order to show cause why the injunction should not be made permanent. A bond of \$1,000,000 was filed.

UNION PACIFIC'S PLANS.

Strong Efforts May Be Made to Get California Freight.

SAN FRANCISCO, Cal., Aug. 23.—A statement is published here that the Union Pacific is only waiting developments before it makes an effort to secure the California freight business, heretofore controlled by the Southern Pacific—Sunset route. The new lines of clipper ships between here and New York are said to have been made to the Union Pacific Southern Pacific business and caused that company to call on the Transcontinental for clipper ships. The Pacific Mail Steamship company, controlled by the Southern Pacific, has always been handled as a club with which to threaten any intended competition on water. It is likely that the Transcontinental, if it is likely to be a competitor of the Union Pacific, will refuse to pay a subsidy any longer, the Union Pacific will be ready for business.

In view of this condition the latter railroad company is now preparing to increase its steam service between San Francisco and Portland. Instead of one steamer every three or four days, daily steamers will run reaching Oregon as fast as the trains do. That the line from Astoria to Portland is controlled by the Southern Pacific is an open secret, and one quarter of the road is now completed. When this is finished the Union Pacific steamers will land their freight at Astoria and then take the train to Portland. It is estimated that the average time from San Francisco to Astoria will be thirty-six hours.

Two new steamers are to be secured at once for the line, and the company believes that by thus showing the merchants of San Francisco its eagerness to help them it will secure a good portion of the trade that is now in the control of the Pacific Mail Steamship company.

The Great Northern also proposes to nip into the California business by running a steamer down between San Francisco and the Sound, and later on, it is confidently believed, President Hill will carry out his original idea of a line from Seattle to Astoria via Boise City down to San Francisco. Thus both lines are reaching out for California trade.
